PROJECTS	
MoneyMood.ai – AI Equity Intelligence Platform	AI stock-analysis platform delivering real-time insights, price forecasts, and screening for Indian equities; React frontend, Python backend serving institutional-grade analytics to retail investors.
AdPulse – AI Advertisement Analyzer	AI tool analyzing ad images and videos to evaluate creative effectiveness, scoring and surfacing insights based on what is actually in the creative, not surface-level review.
PulseMonitor – Clinical Decision Support (Cardiac Arrest)	AI system predicting in-hospital cardiac-arrest risk from vitals, labs, and history; ML models with AI-generated explanations and a dashboard to flag high-risk patients early.
Crooked Key – Real-Time Multiplayer Game	Full-stack six-player hidden-traitor Codenames variant with 3D graphics, real-time sockets, and server-driven game logic ensuring fair play and preventing cheating.
PortfolioBuilderX – AI Resume-to-Portfolio Tool	Tool that converts a resume PDF into an animated portfolio website using AI; users upload, customize colors and photos, and deploy a shareable site in one click.
MazdoorMitra – Digital Contracting Platform	Bilingual (Hindi/English) platform connecting daily-wage workers with contractors via digital contracts, with minimum-wage validation to prevent wage theft.
